

DIGITAL MARKETING

COMPLETE PROFESSIONAL VISUAL STUDY MANUAL

Paid Enrollee Course Material

Course Code: EDA-DMK-130

Level: Beginner to Professional

Duration: 8 Weeks (20 Lessons)

Certificate: Professional Certificate in Digital Marketing

Prerequisite: Digital Literacy

Learning Format: Classroom + Guided Practical + Campaign Project

COURSE OVERVIEW

Digital marketing is the strategic use of digital channels, content, technology and data to attract, engage, convert and retain customers. This course teaches the full marketing process rather than isolated social-media posting.

Learners will plan audiences, content, search visibility, email communication, social campaigns, paid-media concepts, landing pages, lead generation, analytics and integrated campaign strategy using Ethan Digital Academy as the main practical case.

LEARNING OBJECTIVES

- Explain digital marketing and its major channels.
- Research audiences and create customer personas.
- Map the customer journey and marketing funnel.
- Develop positioning, offers and clear calls to action.
- Plan content pillars and content calendars.
- Apply social-media marketing principles.
- Understand SEO and search intent.
- Plan permission-based email marketing.
- Understand paid campaign structure and budgeting principles.
- Design lead-generation and landing-page journeys.
- Measure reach, engagement, clicks, leads and conversions.
- Build an integrated digital marketing campaign.

COURSE OUTLINE

Lesson	Topic
1	Digital Marketing Foundations
2	Marketing Goals, Strategy and Customer Journey
3	Audience Research and Customer Personas
4	Brand Positioning, Value Proposition and Offers
5	Content Marketing and Content Pillars
6	Content Creation and 7-Day/30-Day Calendars
7	Facebook Marketing
8	Instagram Marketing
9	TikTok, YouTube and Short-Form Video
10	LinkedIn and Professional Marketing
11	SEO Fundamentals and Search Intent
12	Website and Landing Page Marketing
13	Email Marketing and CRM Fundamentals
14	WhatsApp Business and Lead Nurturing
15	Paid Digital Advertising Fundamentals
16	Campaign Budgeting and Media Planning
17	Marketing Analytics and KPIs
18	Conversion Optimisation and A/B Testing Concepts
19	Online Reputation, Community and Retention
20	Final Integrated Digital Marketing Campaign

LESSON 1: DIGITAL MARKETING FOUNDATIONS

Digital marketing connects organisations with audiences through digital channels such as websites, search engines, social media, email, messaging and online advertising.

Digital Marketing Ecosystem

Channels work together around the customer

Figure 1. The digital marketing ecosystem.

Traditional and Digital Marketing

Traditional channels include print, radio, television and physical events. Digital channels add targeting, interaction, measurement and rapid optimisation.

Major Digital Channels

- Website and landing pages
- Search and SEO
- Social media
- Email and CRM
- Messaging platforms
- Content marketing
- Paid digital media
- Analytics and reporting

Integrated Marketing

Strong campaigns connect several channels around one customer need and one clear business objective.

Step-by-Step Practical

1. List the digital channels used by Ethan Digital Academy.
2. Identify the purpose of each channel.
3. Choose one course and write a simple digital campaign objective.

Review Questions

1. Define digital marketing.
2. Name six digital channels.
3. What is integrated marketing?
4. Why is measurement important?

Assignment

Prepare a one-page digital marketing ecosystem for a training business.

LESSON 2: MARKETING GOALS, STRATEGY AND CUSTOMER JOURNEY

A strategy explains what the organisation wants to achieve, who it wants to reach, what value it offers and how success will be measured.

Customer Journey and Marketing Funnel

Move from attention to loyalty

Figure 2. A simple marketing funnel.

SMART Goals

Useful goals are specific, measurable, achievable, relevant and time-bound.

Customer Journey

- Awareness
- Interest
- Consideration
- Conversion
- Retention and advocacy

Funnel Thinking

Different stages need different content. An awareness post should not be judged by the same metric as a sales landing page.

Strategy Questions

Who is the audience? What problem matters? What offer is relevant? Which channel fits? What action should the audience take?

Step-by-Step Practical

1. Write one SMART goal for course enrolment.

2. Map a learner from first awareness to enrolment.
3. Choose one content type for each journey stage.
4. Select one KPI for each stage.

Review Questions

1. What is a SMART goal?
2. Name five customer-journey stages.
3. Why do funnel stages need different content?
4. What is a KPI?

Assignment

Create a customer journey for one Ethan Digital Academy course.

LESSON 3: AUDIENCE RESEARCH AND CUSTOMER PERSONAS

Audience research helps marketers understand needs, behaviours, motivations, objections and preferred channels.

Customer Persona

A practical audience profile for better content and offers

Persona	Ada - Young Professional
Goal	Improve digital skills for career growth
Challenge	Limited time; needs practical learning
Channels	Instagram, YouTube, Search, Email
Content Need	Clear examples, proof, short tutorials
CTA	View course details / enrol

Figure 3. A practical customer persona.

Research Sources

- Customer interviews
- Surveys
- Website/search data
- Social insights
- Sales enquiries
- Reviews and comments
- Competitor observation

Persona Components

A useful persona can include goals, challenges, information needs, preferred channels, decision factors and likely objections.

Segmentation

Audiences can be grouped by needs, behaviour, stage, geography or other legitimate marketing criteria.

Avoid Assumptions

Personas should be informed by evidence rather than stereotypes.

Step-by-Step Practical

1. Choose a target market for a digital course.
2. Write five research questions.

3. Create one evidence-based persona.
4. List three messages that would be relevant to that persona.

Review Questions

1. What is audience research?
2. What is a customer persona?
3. Name four research sources.
4. Why should personas avoid stereotypes?

Assignment

Create two customer personas for Ethan Digital Academy.

LESSON 4: BRAND POSITIONING, VALUE PROPOSITION AND OFFERS

Positioning explains the place a brand wants to occupy in the customer's mind. A value proposition explains why the offer matters.

Brand Consistency

A recognizable brand uses consistent identity and message

Figure 11. Brand consistency and value communication.

Positioning

Clarify the target audience, problem, category, benefit and reason to believe.

Value Proposition

State the practical value clearly. Avoid vague claims that cannot be supported.

Offer

An offer combines the product/service, price or terms, value, proof and next step.

Call to Action

A CTA tells the audience what to do next: view details, register, enquire, download or book.

Step-by-Step Practical

1. Write a positioning statement for Ethan Digital Academy.
2. Write three value-proposition alternatives.
3. Create a course offer with a clear CTA.
4. Review the wording for clarity and credibility.

Review Questions

1. What is positioning?

2. What is a value proposition?
3. What is an offer?
4. What is a CTA?

Assignment

Develop a one-page offer sheet for a selected course.

LESSON 5: CONTENT MARKETING AND CONTENT PILLARS

Content marketing creates useful, relevant material that attracts and supports an audience over time.

Content Pillars

Plan repeatable themes instead of random posting

Figure 4. Four practical content pillars.

Content Purposes

- Educate
- Build trust
- Engage community
- Demonstrate proof
- Generate leads
- Support conversion

Content Pillars

Pillars are repeatable themes that keep communication focused.

Formats

Posts, carousels, short videos, long videos, articles, guides, email and live sessions can serve different purposes.

Quality

Useful content is accurate, clear, audience-focused and connected to a business objective.

Step-by-Step Practical

1. Create four content pillars.
2. Write three post ideas under each pillar.
3. Assign a funnel stage to each idea.

4. Choose the best format for four ideas.

Review Questions

1. What is content marketing?
2. What is a content pillar?
3. Name four content purposes.
4. Why should content connect to an objective?

Assignment

Create a 12-idea content bank.

LESSON 6: CONTENT CREATION AND CONTENT CALENDARS

A content calendar turns strategy into an organised publishing plan.

7-Day Content Calendar

Match content format to objective and CTA

Day	Pillar	Format	Objective
Mon	Educate	Carousel	Awareness
Tue	Engage	Story/Poll	Interaction
Wed	Prove	Testimonial	Trust
Thu	Educate	Short Video	Value
Fri	Convert	Offer Post	Leads
Sat	Engage	Q&A	Community
Sun	Prove	Case Study	Trust

Figure 5. A seven-day content calendar.

Calendar Fields

- Date/day
- Channel
- Content pillar
- Format
- Topic/message
- CTA
- Owner/status
- Performance note

7-Day and 30-Day Planning

Short calendars support quick execution; monthly calendars help balance campaigns and themes.

Repurposing

One strong lesson can become a video, carousel, email, short post and FAQ.

Workflow

Plan, create, review, publish, engage, measure and improve.

Step-by-Step Practical

1. Build a 7-day calendar.
2. Include at least four content pillars.

3. Write a CTA for each conversion-focused post.
4. Repurpose one tutorial into three formats.

Review Questions

1. What belongs in a content calendar?
2. What is repurposing?
3. Why should content be reviewed before publishing?
4. What happens after publishing?

Assignment

Create a 30-day content calendar.

LESSON 7: FACEBOOK MARKETING

Facebook can support brand presence, community, video, events, messaging, lead generation and advertising.

Content Pillars

Plan repeatable themes instead of random posting

Figure 4. Content pillars can guide Facebook publishing.

Page Optimisation

Use accurate business information, recognisable branding, useful About information and an appropriate CTA.

Content

Educational posts, short videos, testimonials, event information and community-focused content can support different goals.

Engagement

Respond professionally to relevant comments and messages. Use insights to learn which content serves the audience.

Meta Business Tools

Business tools can support scheduling, inbox management and performance review. Interfaces change, so focus on the underlying workflow.

Step-by-Step Practical

1. Audit a practice Facebook Page using a checklist.
2. Draft one educational post and one lead-generation post.
3. Write professional responses to three fictional comments.
4. Choose three metrics to review.

Review Questions

1. What should a Facebook Page communicate?
2. Name three useful Facebook content types.
3. Why is community management important?
4. What can insights tell a marketer?

Assignment

Prepare a one-week Facebook campaign plan.

LESSON 8: INSTAGRAM MARKETING

Instagram is a visual platform where Reels, Stories, posts, carousels, profiles and messaging can work together.

Content Pillars

Plan repeatable themes instead of random posting

Figure 4. Content pillars also support Instagram strategy.

Profile Optimisation

Use a clear name, bio, category/context, link and consistent visual identity.

Reels

Short video can support reach and education. The opening should quickly communicate relevance.

Stories

Stories can support updates, polls, questions, reminders and behind-the-scenes communication.

Carousels

Carousels can explain multi-step topics and encourage saves when the information is genuinely useful.

Keywords and Hashtags

Use relevant descriptive language and hashtags naturally. Avoid irrelevant tags simply to chase reach.

Step-by-Step Practical

1. Write an improved Instagram bio.
2. Storyboard a 30-second educational Reel.
3. Create a five-slide carousel outline.
4. Plan three Story frames with a CTA.

Review Questions

1. What is the purpose of an Instagram bio?
2. When are Reels useful?
3. What can Stories do?
4. How should hashtags be selected?

Assignment

Create a seven-day Instagram plan.

LESSON 9: TIKTOK, YOUTUBE AND SHORT-FORM VIDEO

Video marketing can teach, demonstrate, entertain appropriately and build trust.

Customer Journey and Marketing Funnel

Move from attention to loyalty

Figure 2. Video content can move audiences through the funnel.

Hook and Value

Open quickly with the audience problem or promised value, then deliver the information clearly.

Structure

- Hook
- Context
- Main value
- Example or proof
- CTA

YouTube

Longer videos can support tutorials, explanations and searchable evergreen content.

Short-Form Platforms

Vertical short video works best when the message is focused and visually clear.

Measurement

Watch time, retention, clicks and meaningful actions can be more useful than views alone.

Step-by-Step Practical

1. Write three video hooks for a digital course.
2. Create a 45-second educational script outline.

3. Plan a longer YouTube tutorial.
4. Choose one CTA and three useful metrics.

Review Questions

1. What is a video hook?
2. Name five parts of a simple video structure.
3. What is evergreen content?
4. Why can views alone be misleading?

Assignment

Produce a storyboard for one short and one long video.

LESSON 10: LINKEDIN AND PROFESSIONAL MARKETING

LinkedIn supports professional visibility, thought leadership, employer branding, B2B communication and career-focused marketing.

Brand Consistency

A recognizable brand uses consistent identity and message

Figure 11. Brand consistency is important in professional marketing.

Professional Profile/Page

Communicate expertise, services, proof and a clear professional identity.

Content

Useful professional lessons, case studies, industry observations and educational posts can build credibility.

Networking

Engage thoughtfully rather than sending repetitive unsolicited messages.

B2B Marketing

Business buyers often need evidence, relevance, trust and a clear business case.

Step-by-Step Practical

1. Draft a professional company description.
2. Write one educational LinkedIn post.
3. Create a short case-study post.
4. Plan a respectful networking approach.

Review Questions

1. What is B2B marketing?

2. Name three useful LinkedIn content types.
3. Why is proof important?
4. What makes networking professional?

Assignment

Create a two-week LinkedIn content plan.

LESSON 11: SEO FUNDAMENTALS AND SEARCH INTENT

Search engine optimisation improves the ability of useful web content to be discovered in relevant search results.

SEO Basics

Relevance + quality + technical accessibility

Figure 6. Four major areas that influence SEO.

Search Intent

- Informational
- Navigational
- Commercial investigation
- Transactional

On-Page SEO

Use descriptive titles, headings, useful content, relevant internal links and clear page structure.

Technical Foundations

Pages should be accessible, mobile-friendly and reasonably fast.

Content Quality

Write primarily for users. Avoid stuffing repeated keywords unnaturally.

Local/Business Relevance

Accurate business information and genuinely useful location/service pages can help relevant discovery.

Step-by-Step Practical

1. Choose five search phrases related to digital training.
2. Classify their intent.

3. Draft an SEO-friendly page title and headings.
4. Write a short useful page introduction without keyword stuffing.

Review Questions

1. What is SEO?
2. What is search intent?
3. Name four intent types.
4. What is keyword stuffing?

Assignment

Prepare an SEO brief for one course page.

LESSON 12: WEBSITE AND LANDING PAGE MARKETING

A landing page focuses attention on a specific campaign objective and next action.

Customer Journey and Marketing Funnel

Move from attention to loyalty

Figure 2. A landing page supports the conversion stage.

Core Sections

- Clear headline
- Relevant benefit/value
- Course or offer details
- Proof
- Frequently asked questions
- CTA
- Contact or enrolment path

Message Match

The landing page should continue the promise made in the ad, email or social post.

Trust

Use accurate information, transparent terms and credible proof.

Mobile Experience

Pages should be readable and easy to act on from mobile devices.

Step-by-Step Practical

1. Sketch a landing page for a course.
2. Write the headline and supporting text.
3. Add three proof elements you could legitimately use.

4. Write one primary CTA.

Review Questions

1. What is a landing page?
2. What is message match?
3. Why is mobile experience important?
4. What makes proof credible?

Assignment

Create a landing-page wireframe.

LESSON 13: EMAIL MARKETING AND CRM FUNDAMENTALS

Email marketing uses permission-based communication to educate, nurture and convert subscribers or customers.

Email Marketing Flow

Permission-based communication with a clear purpose

Figure 7. A permission-based email marketing flow.

Permission

Build lists through legitimate sign-up and customer relationships. Respect applicable consent and unsubscribe requirements.

Email Structure

- Subject line
- Opening/context
- Useful main message
- CTA
- Contact/footer information

Sequences

Welcome, education, reminder and follow-up sequences can support the customer journey.

CRM

A customer relationship management system helps organise contacts, interactions, opportunities and follow-up.

Metrics

Delivery, opens where available, clicks, conversions and unsubscribes can help assess performance.

Step-by-Step Practical

1. Draft a welcome email.

2. Create a three-email nurture sequence.
3. Define the CTA for each email.
4. Create a simple CRM contact-stage list.

Review Questions

1. What is permission-based email?
2. What is a nurture sequence?
3. What is CRM?
4. Name three useful email metrics.

Assignment

Prepare a five-email course-enrolment sequence.

LESSON 14: WHATSAPP BUSINESS AND LEAD NURTURING

Messaging can support enquiries and follow-up when communication is relevant, respectful and organised.

Email Marketing Flow

Permission-based communication with a clear purpose

Figure 7. Lead nurturing is a sequence, not a single message.

Business Profile

Use accurate business details and a professional description.

Lead Handling

Record enquiry source, interest, status and next follow-up rather than relying on memory.

Quick Replies

Reusable replies can improve consistency, but they should still fit the customer's question.

Consent and Frequency

Avoid unwanted bulk messaging. Respect preferences and applicable rules.

Nurturing

Useful follow-up answers questions, provides proof and guides the prospect toward an informed decision.

Step-by-Step Practical

1. Create five professional quick replies.
2. Design a simple lead-status sheet.
3. Write a three-step follow-up sequence.
4. Draft a message that gives a prospect an easy way to stop follow-up.

Review Questions

1. What is lead nurturing?
2. Why should enquiries be tracked?
3. What are quick replies?
4. Why does messaging frequency matter?

Assignment

Create a WhatsApp lead-handling workflow.

LESSON 15: PAID DIGITAL ADVERTISING FUNDAMENTALS

Paid advertising purchases distribution on digital platforms to reach selected audiences and objectives.

Paid Campaign Structure

Objective → Audience → Creative → Landing Page → Measurement

Figure 8. A safe high-level paid campaign structure.

Campaign Objective

Choose an objective connected to the business goal, such as awareness, traffic, leads or sales.

Audience

Targeting should be relevant and lawful. Do not use sensitive characteristics in inappropriate ways.

Creative

The visual and message should communicate value quickly and honestly.

Landing Page

The next page should match the advertisement and make the next step clear.

Measurement

Track cost and outcomes, not only impressions.

Step-by-Step Practical

1. Create a fictional campaign objective.
2. Define a broad relevant audience without sensitive targeting.
3. Write two ad-copy variations.
4. Sketch the landing-page next step.
5. Choose four campaign metrics.

Review Questions

1. What is a campaign objective?
2. Why does message match matter?
3. What makes targeting appropriate?
4. Why should cost per result be measured?

Assignment

Prepare a paid-campaign brief without launching an ad.

LESSON 16: CAMPAIGN BUDGETING AND MEDIA PLANNING

A media plan allocates budget across channels, time periods and objectives.

Paid Campaign Structure

Objective → Audience → Creative → Landing Page → Measurement

Figure 8. Campaign structure should connect budget to objective and measurement.

Budget Types

Campaigns may use daily or total/lifetime budgets depending on platform and plan.

Allocation

Budget should reflect objectives, audience size, historical performance and testing needs.

Testing

Reserve some budget for controlled creative or audience tests rather than changing many variables at once.

Forecasting

Forecasts are estimates, not guarantees. Use ranges and update assumptions with real performance data.

Governance

Set spending limits and approval processes before launch.

Step-by-Step Practical

1. Create a fictional ₦100,000 campaign budget.
2. Allocate it across two channels.
3. Reserve a small testing portion.
4. Define the maximum acceptable cost per lead for the exercise.
5. Create a simple approval checklist.

Review Questions

1. What is media planning?
2. Why should forecasts be treated as estimates?
3. Why reserve budget for testing?
4. What is a spending limit?

Assignment

Prepare a one-page media plan.

LESSON 17: MARKETING ANALYTICS AND KPIs

Analytics turns campaign data into information that can guide decisions.

Marketing Metrics

Measure the stage you are trying to improve

Figure 9. Marketing metrics by funnel stage.

Awareness Metrics

- Reach
- Impressions
- Video views/retention

Engagement Metrics

- Comments
- Shares
- Saves
- Meaningful interactions

Traffic Metrics

- Clicks
- Click-through rate
- Landing-page visits

Conversion Metrics

- Leads
- Sales/enrolments
- Conversion rate
- Cost per lead/acquisition

Interpretation

A metric has meaning only in context. Compare it with the campaign objective, audience, time period and previous performance.

Step-by-Step Practical

1. Create a sample campaign results table.
2. Calculate CTR from clicks and impressions.
3. Calculate conversion rate from leads and landing-page visits.
4. Calculate cost per lead.
5. Write three decisions based on the results.

Review Questions

1. What is reach?
2. What is CTR?
3. What is conversion rate?
4. What is cost per lead?

Assignment

Build a simple campaign dashboard.

LESSON 18: CONVERSION OPTIMISATION AND A/B TESTING CONCEPTS

Conversion optimisation improves the percentage of visitors who complete a desired action.

Figure 10. Analytics should lead to practical decisions.

Conversion Barriers

Confusing pages, weak value, slow loading, unclear forms and poor message match can reduce conversions.

A/B Testing

Compare two controlled versions of one important element, such as a headline or CTA, while keeping other factors as stable as practical.

Hypothesis

State what you expect to improve and why.

Evidence

Use enough relevant data before drawing conclusions; small samples can be misleading.

Ethics

Do not use deceptive interfaces, hidden charges or manipulative dark patterns.

Step-by-Step Practical

1. Review a fictional landing page.
2. Identify five possible conversion barriers.
3. Write one A/B test hypothesis.

4. Create Version A and Version B headlines.

5. Choose the conversion metric.

Review Questions

1. What is conversion optimisation?

2. What is an A/B test?

3. What is a hypothesis?

4. Why can small samples mislead?

Assignment

Create a conversion-improvement plan.

LESSON 19: ONLINE REPUTATION, COMMUNITY AND RETENTION

Marketing continues after conversion. Customer experience, community management and retention influence long-term growth.

Brand Consistency

A recognizable brand uses consistent identity and message

Figure 11. Brand consistency and proof support reputation.

Community Management

Respond to genuine questions and concerns professionally and consistently.

Reviews and Reputation

Encourage authentic feedback; never fabricate reviews.

Complaints

Acknowledge the issue, gather facts, move sensitive details to a private channel and follow through.

Retention

Useful follow-up, support, relevant offers and ongoing value can improve customer loyalty.

Advocacy

Satisfied customers may voluntarily recommend the brand; advocacy should be earned, not forced.

Step-by-Step Practical

1. Write responses to three fictional customer comments.
2. Create a complaint-response workflow.
3. Plan one retention email or message.
4. Write a request for honest feedback without pressuring the customer.

Review Questions

1. What is community management?
2. Why should reviews never be fabricated?
3. What is retention?
4. How should sensitive complaint details be handled?

Assignment

Create an online-reputation checklist.

LESSON 20: FINAL INTEGRATED DIGITAL MARKETING CAMPAIGN

The final project combines strategy, audience research, content, channels, lead generation and measurement into one professional campaign.

Integrated Campaign Plan

Connect strategy, content, channels and measurement

Figure 12. An integrated campaign connects goal, audience, offer, content, channels and KPIs.

Campaign Scenario

Promote one Ethan Digital Academy course to a clearly defined audience.

Required Sections

- SMART goal
- Audience research and persona
- Positioning/value proposition
- Offer and CTA
- Customer journey
- Four content pillars
- 7-day content calendar
- Social media plan
- SEO/search brief
- Landing-page wireframe
- Email/WhatsApp nurture plan
- Paid campaign brief
- Budget/media plan
- KPIs/dashboard

Presentation

Present the strategy as a professional campaign proposal.

Evaluation

The campaign will be judged on clarity, audience relevance, integration, credibility, measurement and practical execution.

Step-by-Step Practical

1. Select one course.
2. Complete every required campaign section.
3. Create sample content assets or wireframes.
4. Build a measurement table.
5. Present the campaign and explain your decisions.

Review Questions

1. What makes a campaign integrated?
2. Why must the audience be defined first?
3. How do content and landing pages connect?
4. Why must KPIs match the objective?

Assignment

Submit the complete Digital Marketing Campaign Plan.

REAL-LIFE CASE STUDY - ETHAN DIGITAL ACADEMY

Ethan Digital Academy wants to increase enrolment in a professional digital course. The campaign begins with audience research and a clear persona, then uses educational social content and search-friendly course information to build awareness. A focused landing page explains the offer, while email and WhatsApp follow-up answer questions from interested prospects. Paid media is planned around a defined lead objective and spending limit. Performance is reviewed through reach, clicks, leads, conversion rate and cost per lead. The team improves the campaign based on evidence rather than changing content randomly.

FINAL PRACTICAL PROJECT - 100 MARKS

1. Define a SMART campaign goal.
2. Create an evidence-based customer persona.
3. Write the positioning, value proposition, offer and CTA.
4. Map the customer journey.
5. Create four content pillars and a seven-day calendar.
6. Prepare Facebook/Instagram/video content samples.
7. Create an SEO/search brief and landing-page wireframe.
8. Create an email and WhatsApp nurture sequence.
9. Prepare a paid-campaign brief and media budget.
10. Build a KPI dashboard and present the integrated campaign.

QUIZ - 30 QUESTIONS

1. Define digital marketing.
2. Name six digital marketing channels.
3. What is a SMART goal?
4. Name five customer-journey stages.
5. What is a customer persona?
6. Name four audience-research sources.
7. What is positioning?
8. What is a value proposition?
9. What is a CTA?
10. What is content marketing?
11. What is a content pillar?

12. What is a content calendar?
13. What is content repurposing?
14. Name three useful Facebook content types.
15. What is a Reel?
16. What is a carousel?
17. What is B2B marketing?
18. What is SEO?
19. What is search intent?
20. Name four search-intent types.
21. What is a landing page?
22. What is message match?
23. What is permission-based email marketing?
24. What is CRM?
25. What is lead nurturing?
26. What is a campaign objective?
27. What is CTR?
28. What is conversion rate?
29. What is cost per lead?
30. What is A/B testing?

FINAL EXAMINATION - 100 MARKS

Section A - Objective Questions (20 Marks)

Twenty questions covering strategy, audience, content, social media, SEO, email, paid-media concepts and analytics.

Section B - Short Answer and Case Analysis (30 Marks)

Explain marketing concepts and recommend appropriate channels, content and metrics for realistic business scenarios.

Section C - Practical Campaign Assessment (50 Marks)

Prepare selected parts of a digital marketing campaign: persona, content pillars, calendar, landing-page outline, nurture sequence, campaign brief and KPI table.

COURSE COMPLETION OUTCOME

Graduates of EDA-DMK-130 Digital Marketing will be able to plan and evaluate integrated digital campaigns across content, social media, search, websites, email, messaging and paid-media channels. They will be prepared for specialised study in Facebook/Instagram marketing, SEO, content marketing, email marketing, analytics and advertising.
